

Open to employers from all industries and students from all majors, many of the projects posted by partner employers take an estimated 20 total hours over 2 weeks to complete and can be completed remotely. However, the flexibility of the micro-internship program allows you to tailor the project posting to fit your needs.

Once the project is posted, the intuitive online platform makes it easy to review applicants and hire the best fit. In addition to being an easy way to find the support you need when you need it, many employers use micro-internships as a way to discover talented candidates for summer internships and full-time hires.

Micro-internships can take on any small-scale project you would assign to an entry-level employee. Students can work remotely or on site!

Sample projects include:

- x Lead Generation
- x Social Media Engagement
- x Research & Data Analysis
- x Copywriting
- x Project Management

Hire a micro-intern in a few easy steps

- x Submit a project posting
- x Opportunities are shared widely with students
- x Select your student from the applicant pool
- x [Get started!](#)

Costs

- x Students are paid a lump sum upon satisfactory completion of the project
- x Employers pay at least \$12 per estimated hour of work
- x
